

# Don't buy an exhaust system until you read this...

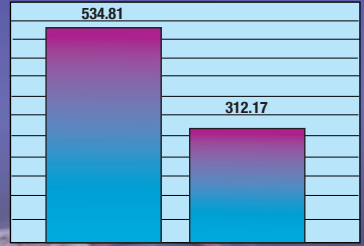

The BPM range of exhaust continues superior design that delivers a greater power gain over the competition. The BPM TwisterSpec range has also been proven in countless of podium victories by professional race teams. Further to this in the BPM GT [MC] includes a true high flow cat to distance other competing exhausts even further.

## High Performance

Measures taken at an ambient temperature of 74 degrees F

Forward Flow CFM
