

'Injen - Dyno proven figures, no lies'

INJEN Air Filters

More Horsepower/Torque

- Medical grade cotton gauze filter media reduces air restriction and increases engine output
- Surface area optimized to reduce pressure differential across the element resulting in reduced back pressure and increased torque

Longer Filter Life

- The last filter your vehicle will ever need

Improved Engine Protection

- Multi-layer oiled cotton gauze attracts and traps contaminants without sacrificing air flow
- Sturdy epoxy coated wire mesh construction protects filter media (and engine) from large debris

Increased Airflow

- Precision pleat geometry optimizes airflow through intake system
- Engineered to control maximum filter face air velocity with deep precision pleats

For your replacement filters, the choice is Injen Technology hands down.
